Importing Dataset And Displaying It in A Table

The dataset has been taken from [here](#). The dataset is hosted on github as part of a library of different databases, that can be used for analysis by Data Analysts and Data Scientists.

The dataset that we used here, is called 'WWUsage'. It shows a time series of the numbers of users connected to the internet through a server every minute. The time series is of length 100. This is also shown through the plot below. The original source of the dataset is from a study 'Time Series Analysis by State Space Methods' by Durbin, J. and Koopman, S. J. (2001).

time	value
1	88
2	84
3	85
4	85
5	84
6	85
7	83
8	85
9	88
10	89
11	91
12	99
13	104
14	112
15	126
16	138
17	146
18	151
19	150
20	148
